"THE COLLECTOR"

Nestled in the heart of the Western Cape, South Africa, our exceptional wines hail from the enchanting region surrounding the picturesque town of Ashton.

Here, the Kogmanskloof river gracefully winds its way through the landscape, drawing its source from the arid expanses of the Karoo and the majestic peaks of the Langeberg mountain range. The unique terroir of this area, characterised by the indigenous Fynbos vegetation, imparts a distinctive character to our wines. The Fynbos, a resilient desert plant, thrives under the influence of a hot and dry climate, further enriched by the natural water springs that emerge beneath the mountains. This pristine environment not only contributes to the exquisite flavour profiles of our wines but also ensures a nurturing haven for the cultivation of grapes, allowing us to create wines of unparalleled quality and character.

In this haven of natural abundance, our vineyards benefit from the unique combination of the desert's resilience and the mountain's nurturing embrace. The resulting wines showcase the essence of this remarkable region, embodying the purity of the terroir and the passion of our winemaking craft. Each bottle tells the story of Ashton's terroir – a story of sun-soaked vineyards, cool mountain breezes, and the rich tapestry of flavours that make our wines truly exceptional.
